ALLIANCE FOR CANCER GENE THERAPY, INC. ("ACGT")
REQUEST FOR APPLICATIONS
2015 Investigator’s Award in Clinical Translation of Cell and Gene Therapy for Sarcoma

The Wendy Walk/ACGT Sarcoma Research Grant

Abstract Deadline: October 26, 2015 at 11 am EST
Invitation to Submit Application: November 13, 2015
Completed Application Deadline: January 18, 2016 at 11 am EST

September 1, 2015

PROGRAM GUIDELINES:

PURPOSE
Alliance for Cancer Gene Therapy, Inc. (ACGT) funds research aimed at furthering the
development of cell and gene therapy approaches to the treatment of cancer. To this end,
ACGT offers awards in Clinical Translation of Cell and Gene Therapy for Cancer, to qualified
scientists at the assistant professor level and above. This award is specifically for those
conducting Cell and Gene Therapy Research for sarcoma and is entitled, The Wendy
Walk/ACGT Sarcoma Research Grant.

ELIGIBILITY REQUIREMENTS
Candidates for the 2015 Investigator’s Award in Clinical Translation of Cell and Gene Therapy
for Sarcoma, The Wendy Walk/ACGT Sarcoma Research Grant must hold an MD, PhD, or
equivalent degree and must be a tenure-track or tenured faculty. The investigator must be
conducting original research as an independent faculty member. ACGT has no citizenship
restrictions, and research supported by the award must be conducted at academic medical
centers or research centers located in the United States or Canada.

FINANCIAL INFORMATION
The award provides up to a maximum of $500,000 distributed over 2-3 years, inclusive of a
maximum of 10% indirect costs. The funds may be used at the recipient’s discretion for salary,
technical assistance, supplies, animals or capital equipment, but may not support staff not
directly related to the project, e.g. secretaries or administrative assistants. Purchase of
equipment is not allowed in the final year of the grant. Continued support is contingent upon
submission and approval of a non-competitive renewal application each year.

1ACGT recognizes there may be other excellent researchers not on a tenure-track, or not at
medical schools or research centers, but this is an eligibility requirement for application.
ACGT RESEARCH OBJECTIVES

A number of cell and gene therapy approaches for cancer have been shown to be efficacious and safe in laboratory animal models in the recent years, but their translation into clinical trials has been hindered by a lack of resources. Recognizing this critical need, ACGT is accepting grant applications to produce and release-testing of the clinical trial agents under cGMP, conduct the necessary pre-clinical pharmacological and toxicological studies in appropriate animal models, and/or conducting the clinical translational trials in patients in support of an Investigative New Drug (IND) application to the FDA. While the unambiguous demonstration of PRECLINICAL TREATMENT EFFICACY IN SARCOMA-BEARING ANIMALS by cell and gene therapy is a pre-requisite, entering into the clinical trial during the funding period is also a requirement. Applications that do not include this specific aim will be deemed unresponsive to the RFA.

Application Procedures

There is a two-step process for submitting applications electronically via proposalCENTRAL, an outside service provider hosted by Altum. Access is available using links provided in the ACGT website, www.acgtfoundation.org or directly through the proposalCENTRAL website at: https://proposalcentral.altum.com/Login.asp.

A candidate must submit the following by the required deadlines:

- Step 1: A pre-application (called Letter of Intent [LOI] on proposalCENTRAL site) that includes an abstract of the proposed research and an updated biographical sketch. The LOI/abstracts will then be reviewed by the Scientific Advisory Council and selected ones will be invited to submit full applications
- Step II: For those invited to submit a full application, a completed electronic application, including templates and a Signed Administrative and Signature Page(s) should be scanned and attached to the front of the completed application template

NOTE: A paper copy submission is NOT required.

INSTRUCTIONS

Instructions for completing the application are available at the ACGT website under Research Grants and also through the proposalCENTRAL website.

CUSTOMER SUPPORT

If you have any questions regarding the online application, please contact proposalCENTRAL Customer Support by e-mail at pcsupport@altum.com
Telephone: 1-800-875-2562 x 227 (toll-free) or (301) 916-4557 x 227.
REVIEW PROCESS
Each applicant’s abstract of the proposed project is reviewed by members of the ACGT Scientific Advisory Council. All applicants will be evaluated on the basis of scientific and technical merit and a corresponding fit with the research objectives of the grant. Based on the review of the LOIs certain applicants will be invited to submit a full application for consideration. These applications are then peer reviewed by two experts in the field, with the highest scores determining the pool of finalists from which the Scientific Advisory Council will Select for recommendation to the Board of Directors. The announcement of the recipient is scheduled for March 2016.

INSTITUTIONAL POLICY
Grant funds will be disbursed following execution of a grant agreement between the grantee institution and ACGT. The following items will be covered in ACGT grant agreements with grantee institutions:

- Overhead of up to 10% is included in the awarded amount. The 2015 INVESTIGATOR’S AWARD IN CLINICAL TRANSLATION OF CELL AND GENE THERAPY FOR SARCOMA Award, The Wendy Walk/ACGT Sarcoma Research Grant will support research projects with two to three year time frames for completion, with annual non-competitive renewal applications.
- Grantees and their affiliated institutions are required to submit periodic progress reports to ACGT. In addition, they are expected to share their research findings with the scientific community in a timely fashion through presentation at professional meetings and publication in scientific journals.
- ACGT will request acknowledgment of the grant in any presentations and/or publications by the investigators and/or institutions.
- ACGT shall receive a reasonable royalty return, including license fees on inventions and improvements made by investigators on research supported by its grants.
- The grantee institution will agree (i) to indemnify ACGT solely with respect to claims relating to the award of a grant and (ii) that all research supported by ACGT will be conducted in accordance with all applicable state and Federal laws, rules and regulations.
- Awards to an institution will terminate when the principal investigator departs from the grantee institution, and can be re-initiated at an alternate institution subject to ACGT approval.

RESPONSIBILITY OF THE GRANTEE INSTITUTION
An application for a grant must bear the signature of the official authorized to sign for the institution, acknowledging the above policies.
